

# Safely and Securely Generate Employee Documents from SAP SuccessFactors

Strato is a cloud-based solution that allows users to generate elegantly formatted employee documents with conditional content from SAP SuccessFactors Employee Central and Recruiting. It uses SAP OData integration and SAP SuccessFactors Ad hoc Query to securely access employee information when generating documents.

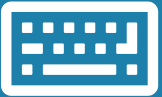

Strato leverages the single sign-on capabilities of SAP SuccessFactors to create a fully integrated and secure user experience. In addition, Strato's robust user management settings allow administrators to control who can create, modify, and generate documents by user role or function. All of this ensures that Strato is a secure and user-friendly document generation solution for SAP SuccessFactors.

Strato leverages single sign-on to enable users to access data sources securely.

Strato allows you to maintain different authorizations for users of different roles across your company.

Strato allows administrators to track who creates, maintains or deletes documents.

Strato's ease-of-use means users can begin creating documents in minutes. To get started with Strato or to request an in-depth demonstration, contact SpinifexIT at [info@StratoHCM.com](mailto:info@StratoHCM.com) or visit the Strato page on the SAP Store.
